## SAFETY DATA SHEET

### Material Safety Data Sheet

*Safety Data Sheet according to regulation No 1907/2006/EU, as it has been adjusted and is currently in vigor.*

## 1 – Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name:** BRIX-IN

**Catalogue No.:** PR.079

### 1.2 Relevant identified uses of the substance or mixture and non-indicated uses

**Identified uses:** Fertilizer. Biostimulant

### 1.3 Details of the supplier of the safety data sheet

**Company Identity:** DEMIRTZOGLOU & ASSOCIATES SA

**Address:** 1 Ermou & Theotokopoulou str.,

ZIP. 144 52, Metamorphosis

**Telephone:** +30 210 284 5891

**email :** info@humofert.gr

### 1.4 Emergency call number:

Poison Center num: +30 210 7793777

## 2 – Hazards identification

### 2.1 Classification of the substance or mixture

According to Regulation (EC) No 1272/2008 (CLP):

**Reproductive toxicant (Category 1B), H360FD**

**Serious eye damage (Category 1), H318**

### 2.2 Labeling

According to Regulation (EC) No 1272/2008 (CLP):

**Label elements**

Pictogram:

**GHS08**

**GHS05**

Signal word(s): **DANGER**

Hazard statement(s):

Issue date: 20/4/2018

2<sup>nd</sup> edition

H318: Causes serious eye damage.

H360FD: May damage fertility. May damage the unborn child.

Precautionary statement(s) - Prevention:

P201: Obtain special instructions before use.

P202: Do not handle until all safety precautions have been read and understood.

P280: Wear protective gloves/protective clothing/eye protection/ face protection.

P281: Use personal protective equipment as required.

Precautionary statement(s) – Response:

P305+P351+P338 : IF IN EYES: Rinse continuously with water for several minutes.

Remove contact lenses if present and easy to do – continue rinsing.

P308+P313: IF exposed or concerned: Get medical advice/attention.

P310: Immediately call a POISON CENTER or doctor/physician.

Precautionary statement(s) – Disposal:

P501: Dispose of contents/container to ... in accordance with local/regional/national/international regulation (to be specified).

**Other information:**

«For professional use only»

«Contains: Nitric acid ammonium calcium salt, Disodium Octaborate Tetrahydrate».

**2.3 Other hazards**

*According to Regulation (EC) No 1272/2008 (CLP):*

**Not known.**

### **3 - Composition / Information on ingredients**

**3.1 Substance**

Not applicable

**3.2 Mixture**

### **4 – First aid measures**

**4.1 First aids**

**Inhalation:** Remove the victim to fresh air and let him rest in a position comfortable for breathing. If symptoms persist, seek medical advice.

**Swallowing:** Drink a lot of water. Do not induce vomiting. If symptoms persist, seek medical advice. Immediately call a POISON CENTER or doctor/physician.

**Skin contact:** Wash with soap and plenty of water. Remove immediately all contaminated clothing. Seek medical advice if necessary.

**Eye contact:** Rinse with water for about 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If symptoms persist, seek medical advice.

**4.2 Most significant symptoms and impacts, acute or subsequent**

**Symptoms:** Not known.

**4.3 Indication of any required immediate medical treatment and special cure**

Treat symptomatically. No specific antidote is known.

## 5 – Fire fighting measures

### 5.1 Extinguishing means

*Suitable extinguishing means:* Water (spray), dry powder, foam

### 5.2 Special hazards arising from the substance or mixture

In case of fire harmful gases may be produced, such as nitric oxides.

### 5.3 Recommendations to the firemen

In case of fire put on a suitable fire-extinguishing-protective equipment a self-contained breathing apparatus.

*Additional information:* This product is not combustible. During fire extinction take into consideration the local circumstances and the surrounding environment. Contaminated fire-extinguishing water must be discarded according to the official regulations.

## 6 – Accidental release measures

### 6.1 Personal precautions, protective equipment and emergency procedures

*Personal precautions:* It is recommended to use protective gloves (protection according to EN374). Use work uniform. Avoid contact with eyes, skin and mouth.

### 6.2 Environmental Precautions

Restrain spreading of contaminated water/fire-extinction water. Do not allow it to enter the sewage system and contaminate superficial and underground waters.

### 6.3 Methods and materials for restriction and cleaning

*Methods for cleaning up:* In case of leakage absorb with a suitable, inactive absorbent material. Sweep. Transfer the waste in suitable (labeled) containers for obliteration. Clean well the whole area with plenty of water.

### 6.4 Reference to other sections

More information in sections: 7 for handling, 8 for personal protection and 13 for disposal.

## 7 – Handling and Storage

### 7.1 Protections for safe handling

*Recommendation for safe handling:* Avoid contact with eyes and skin. Handle in accordance with good industrial hygiene and safety practice.

*Recommendation for fire prevention and explosion protection:* No special precautions are required for fire prevention.

### 7.2 Safe storage conditions, including possible non-compatibilities

*Storage and packaging requirements:* Store the product with its label on it, tightly closed. Store the product in a cool, dry and well-ventilated place. It must be stored separately from food. It is not a hazardous product if transferred according to the proper rules of transport (P405), (P403+P233).

Issue date: 20/4/2018  
2<sup>nd</sup> edition

**Storage recommendation:** the product should be stored separately from food.

**Other clues:** it is not a hazardous product if transferred according to the proper rules of transport.

## 8 – Exposure Control

### 8.1 Control parameters

#### **Components with occupational exposure limit values**

Not known occupational exposure limit values.

### 8.2 Exposure controls

#### **Individual protection measures:**

**Eyes/face protection:** Use appropriate protective glasses (EN166)

**Hands protection:** It is recommended to use appropriate protective gloves when using the product (The selected protective gloves must satisfy the specifications of EU Directive 89/689/EEC and the standard EN 374 deriving from it).

**Respiratory system protection:** Be sure to work in a well ventilated area.

**Personal hygiene measures:** Avoid contact with eyes, skin and clothing. The use of self-contained work uniform is recommended. It is not allowed to drink or smoke or use smoke in the working area. Work clothes should be stored away from foods and drinks. Handle in accordance with good industrial hygiene and safety practice.

**Environmental exposure controls:** Prevent the material from entering the sewage system.

## 9 – Physical and chemical properties

### 9.1 Basic physical and chemical properties information

<b>Form :</b>	Thick liquid
<b>Color :</b>	Dark brown-Black
<b>Odor :</b>	Almost odorless
<b>pH (25°C) :</b>	6.3-6.6
<b>Boiling point :</b>	No information available
<b>Melting point:</b>	>>
<b>Flammability temperature:</b>	Not flammable
<b>Flash point:</b>	>>
<b>Vaporization rate:</b>	The product is not volatile
<b>Flammability:</b>	Not combustible
<b>Lower explosion limit:</b>	Not applicable
<b>Upper explosion limit :</b>	>>
<b>Vapour pressure:</b>	>>
<b>Density (25°C):</b>	1.25-1.3 g/ml
<b>Solubility:</b>	100% water soluble (25°C)
<b>Oxidizing properties:</b>	Not oxidizing
<b>Viscosity :</b>	Low

### 9.2 Other information

## 10 – Stability and reactivity

Issue date: 20/4/2018  
2<sup>nd</sup> edition

Stable product under the recommended handling and storage conditions (section 7).

#### **10.1 Reactivity**

Stable product

#### **10.2 Chemical Stability**

Stable product under the recommended handling and storage conditions (section 7).

#### **10.3 Hazardous reactions possibility**

Not known.

#### **10.4 Conditions to avoid**

Not known.

#### **10.5 Not compatible materials**

Strong reducing agents, inflammable materials, metals, strong oxides, organic material.

#### **10.6 Hazardous decomposition products**

In case of fire hazardous nitrogen oxides may be formed.

### **11 – Toxicological information**

#### **11.1 Information about toxicological effects**

The product has not been tested. The information arises from the hazardous properties of the individual ingredients, considering cut-off values, generic or specific concentration limits, applying cumulative methods and using multiplying factors when required.

##### **Acute toxicity**

**Inhalation:** There is no information about the product.

**Swallowing:** >>

**Skin contact:** >>

**Eye contact:** >>

##### **Irritating Effect**

**Inhalation:** There is no information about the product.

**Swallowing:** >>

**Skin contact:** >>

**Eye contact:** >>

##### **Chronic toxicity**

**Carcinogenicity:** There is no information about the product.

**Mutagenicity:** >>

**Teratogenic potential:** >>

**Effects on growth:** >>

**Effects on fertility:** >>

##### **Further information related to toxicity**

##### **Disodium Octaborate Tetrahydrate**

**LD<sub>50</sub> (oral) rat:** 3143.6 mg/kg

**LD<sub>50</sub> (oral) mouse:** 2877.2 mg/kg

**LD<sub>50</sub> (skin) rat:** >2000 mg/kg

**LC<sub>50</sub> (5h) (inhalation) rat:** >2.03 mg/kg

**NOAEL for fertility (oral) rat:** 17.5 mg B/kg/ day

Issue date: 20/4/2018

2<sup>nd</sup> edition

**Nitric acid ammonium calcium salt**

**LD<sub>50</sub> (oral) rat:** >300 - <2000mg/kg

**LD<sub>50</sub> (skin) rat:** >2000 mg/kg

## **12 – Ecological information**

### **12.1 Toxicity**

*Evaluation of the toxicity in aquatic environments:* It is very likely that the product does not demonstrate acute toxic effect on aquatic organisms. These declarations derive from the hazardous properties of the single ingredients, as well as from their concentrations in the mixture.

*Toxicity on fish:* The product has not been tested.

*Toxicity on daphnias and other aquatic invertebrates:* The product has not been tested.

*Toxicity on aquatic plants:* The product has not been tested.

*Microorganisms/ Effects on activated silt:* No hampering of the degrading ability of the activated silt is expected when the product enters biological purification premises at adequately low concentrations. The product has not been tested.

*Long-term toxicity on fish:* The product has not been tested.

*Long-term toxicity on aquatic invertebrates:* The product has not been tested.

*Earth-toxicity estimation:* The product has not been tested.

### **12.2 Persistence and degradability**

No information available.

It contains mineral ingredients which are not easily degradable.

### **12.3 Bioaccumulation potential**

The product has not been tested. No bioaccumulation is expected in organisms.

### **12.4 Results of PBT and vPvB assessment**

The product does not meet the criteria in order to be classified as PBTs (persistent, bioaccumulative and toxic) and vPvBs (very persistent and very bioaccumulative), since the single ingredients do not meet the criteria.

### **12.5 Other negative effects**

The product does not contain substances which are referred in the regulation (EU) 1005/2009 as relevant to the substances which destroy the ozone layer.

## **13 – Information regarding disposal**

### **13.1 Waste handling methods**

*Product:* Chemical waste material must be disposed according to the directive 2008/98/EC about wastes as well as to the relative national regulations.

*Packages with remaining product:* Packages must be disposed according to the special regulations of each country or must be returned to packages recycling entity (P501).

## 14 – Transform information

	14.1. UN Number	14.2. Familiar expediti on name accordin g UN	14.3. Danger order/orders during transportatio n	14.4. Packaging group	14.5. Environmental hazards
<b>Land transport ADR /RID</b>	-	-	-	-	-

<b>Air transport IATA/ICAO</b>	-	-	-	-	-

### 14.6 Special precautions for the user

Not known.

### 14.7 Transportation of bulk material according to Appendix II of MARPOL contract 73/78 and of code IBC.

Not applicable.

## 15 – Regulatory information

This MSDS complies with the Regulation No 1907/2006/EU (REACH) & the Regulation (EU) No.1272/2008 [CLP].

### 15.1 Regulations/ legislation concerning safety, health and environment about the substance or the mixture

There is no information available.

### 15.2 Chemical safety evaluation

There has not been conducted a chemical safety evaluation by the supplier according to Regulation No 1907/2006/EU (REACH).

## 16 – Other information

The Safety data sheet should be used in combination with the technical documentation of the product. The Safety data sheet is prepared based on information collected up to the day that the Safety Data Sheet is written. It is a guide for the safe use, distribution, storage and transport of the product and it does not intend to provide any warning or detailed description. This information is relevant only for the product. If the product is combined with other material or in procedures other than the ones described this

Issue date: 20/4/2018

2<sup>nd</sup> edition

safety data sheet may not be applicable. The Safety data sheet meets the risk criteria of the Regulations of the Tested Products according to the directives of the European Union.
