## SAFETY DATA SHEET

### Material Safety Data Sheet

*Safety Data Sheet according to regulation No 1907/2006/EU, as it has been adjusted and is currently in vigor.*

## 1 – Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name:** STRONG-26

**Catalogue No.:** PR.005

### 1.2 Relevant identified uses of the substance or mixture and non-indicated uses

**Identified uses:** Humic fertilizer.

### 1.3 Details of the supplier of the safety data sheet

**Company Identity:** DEMIRTZOGLOU & ASSOCIATES SA

**Address:** 1 Ermou & Theotokopoulou str.,

ZIP. 144 52, Metamorphosis

**Telephone:** +30 210 284 5891

**email :** info@humofert.gr

### 1.4 Emergency call number:

Poison Center num: +30 210 7793777

## 2 – Hazards identification

### 2.1 Classification of the substance or mixture

According to Regulation (EC) No 1272/2008 (CLP):

**The product is not classified.**

### 2.2 Labeling

According to Regulation (EC) No 1272/2008 (CLP):

**The product does not need to be labelled.**

### 2.3 Other hazards

According to Regulation (EC) No 1272/2008 (CLP):

**Not known.**

## 3 - Composition / Information on ingredients

### 3.1 Substance

Mixture

## 4 – First aid measures

Issue date: 1/4/2019

2<sup>nd</sup> edition

#### **4.1 First aids**

**Inhalation:** Remove victim to fresh air and keep at rest in a position comfortable for breathing. If symptoms persist, seek medical advice.

**Swallowing:** Drink a lot of water. Do not induce vomiting. If symptoms persist, seek medical advice. Immediately call a POISON CENTER or doctor/physician.

**Skin contact:** Wash with soap and plenty of water. Remove immediately all contaminated clothing. Seek medical advice if necessary.

**Eye contact:** Rinse with water for about 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If symptoms persist, seek medical advice.

#### **4.2 Most significant symptoms and impacts, acute or subsequent**

**Symptoms:** Not known.

#### **4.3 Indication of any required immediate medical treatment and special cure**

Treat symptomatically. No specific antidote is known.

### **5 – Fire fighting measures**

#### **5.1 Extinguishing means**

**Suitable extinguishing means:** Use extinguishing means which are appropriate for the circumstances and the surrounding environment (water spray).

#### **5.2 Special hazards arising from the substance or mixture**

In case of fire there is no risk of harmful gases production.

#### **5.3 Recommendations to the firemen**

In case of fire put on a suitable fire-extinguishing-protective equipment.

**Additional information:** This product is not combustible. During fire extinction take into consideration the local circumstances and the surrounding environment.

### **6 – Accidental release measures**

#### **6.1 Personal precautions, protective equipment and emergency procedures**

**Personal precautions:** It is recommended to use protective gloves (protection according to EN374).

#### **6.2 Environmental Precautions**

Not required.

#### **6.3 Methods and materials for restriction and cleaning**

**Methods for cleaning up:** In case of leakage absorb with a suitable, inactive absorbent material.

#### **6.4 Reference to other sections**

More information in sections: 7 for handling, 8 for personal protection and 13 for disposal.

### **7 – Handling and Storage**

Issue date: 1/4/2019

2<sup>nd</sup> edition

### **7.1 Protections for safe handling**

**Recommendation for safe handling:** Handle in accordance with good industrial hygiene and safety practice.

**Recommendation for fire prevention and explosion protection:** No special precautions are required for fire prevention.

### **7.2 Safe storage conditions, including possible non-compatibilities**

**Storage and packaging requirements:** Store the product with its label on it, tightly closed. Store the product in a cool, dry and well-ventilated place. It must be stored separately from food. It is not a hazardous product if transferred according to the proper rules of transport (P405), (P403+P233).

**Storage recommendation:** the product should be stored separately from food.

**Other clues:** it is not a hazardous product if transferred according to the proper rules of transport.

## **8 – Exposure Control**

### **8.1 Control parameters**

**Components with occupational exposure limit values**

Not known occupational exposure limit values.

### **8.2 Exposure controls**

**Individual protection measures:**

**Eyes/face protection:** Not required.

**Hands protection:** It is recommended to use appropriate protective gloves when using the product.

**Respiratory system protection:** Not required

**Personal hygiene measures:** Avoid contact with eyes, skin and clothing. The use of self-contained work uniform is recommended. It is not allowed to drink or smoke or use smoke in the working area. Work clothes should be stored away from foods and drinks. Handle in accordance with good industrial hygiene and safety practice.

**Environmental exposure controls:** Not required.

## **9 – Physical and chemical properties**

### **9.1 Basic physical and chemical properties information**

<b>Form :</b>	Liquids
<b>Color :</b>	Black
<b>Odor :</b>	Light soil smell
<b>pH (20°C) :</b>	9-10
<b>Boiling point :</b>	>640 °C
<b>Melting point:</b>	>640 °C
<b>Flammability temperature:</b>	Not applicable
<b>Flash point:</b>	>>
<b>Vaporization rate:</b>	The product does not evaporate
<b>Flammability:</b>	Not combustible

Issue date: 1/4/2019

2<sup>nd</sup> edition

<b>Lower explosion limit:</b>	Not applicable
<b>Upper explosion limit :</b>	>>
<b>Vapour pressure:</b>	>>
<b>Density (25°C):</b>	1.1 g/ml
<b>Solubility:</b>	100% soluble in water (25°C)
<b>Oxidizing properties:</b>	Not oxidizing
<b>Viscosity :</b>	No information available

## 9.2 Other information

### 10 – Stability and reactivity

Stable product under the recommended handling and storage conditions (section 7).

#### 10.1 Reactivity

Stable product

#### 10.2 Chemical Stability

Stable product under the recommended handling and storage conditions (section 7).

#### 10.3 Hazardous reactions possibility

Not known.

#### 10.4 Conditions to avoid

Not known.

#### 10.5 Not compatible materials

Not known.

#### 10.6 Hazardous decomposition products

Not known.

### 11 – Toxicological information

#### 11.1 Information about toxicological effects

The product has been tested. The product is not irritating, corrosive, it does not provoke acute or chronic toxicity:

LD50 oral = 2000mg/Kg body weight (EU Method B1)

LD50 skin = 2000mg/Kg >> >> (EU Method B3)

NOEL (oral chronic toxicity) = 500mg/ Kg body weight/ day (EU Method B7)

NOEL (toxicity in reproduction) = 250mg/ Kg body weight/ day (OECD Guideline 421)

## 12 – Ecological information

### 12.1 Toxicity

**Evaluation of the toxicity in aquatic environments:** The product does not demonstrate acute toxic effect on aquatic organisms. These declarations have derived from tests.

*LC50 (on fish):* 128 mg/l

*EC50/LC50 (on daphnias and other aquatic invertebrates):* 116 mg/l

*EC50 (on aquatic plants):* 100 mg/l

*EC10 or NOEC (on aquatic plants):* 77 mg/l

*EC50 (on Microorganisms/ Effects on activated silt):* 1000 mg/l

### 12.2 Persistence and degradability

The product has been tested. It is not resistant. It is degradable.

### 12.3 Bioaccumulation potential

The product has been tested. It does not provoke bioaccumulation in organisms.

### 12.4 Results of PBT and vPvB assessment

The product has been tested. The product does not meet the criteria in order to be classified as PBTs (persistent, bioaccumulative and toxic) and vPvBs (very persistent and very bioaccumulative).

### 12.5 Other negative effects

The product has been tested. The product does not destroy the ozone layer.

## 13 – Information regarding disposal

### 13.1 Waste handling methods

*Product:* Chemical waste material must be disposed according to the directive 2008/98/EC about wastes as well as to the relative national regulations.

*Packages with remaining product:* Packages must be disposed according to the special regulations of each country or must be returned to packages recycling entity (P501).

## 14 – Transform information

	14.1. UN Number	14.2. Familiar expediti on name accordin g UN	14.3. Danger order/orders during transportatio n	14.4. Packaging group	14.5. Environmental hazards
<b>Land transport ADR /RID</b>	-	-	-	-	-

<b>Sea transport</b> ADN	-	-	-	-	-
<b>Sea transport</b> IMDG	-	-	-	-	-
<b>Air transport</b> IATA/ICAO	-	-	-	-	-

#### **14.6 Special precautions for the user**

Not required.

#### **14.7 Transportation of bulk material according to Appendix II of MARPOL contract 73/78 and of code IBC.**

Not applicable.

### **15 – Regulatory information**

This MSDS complies with the Regulation No 1907/2006/EU (REACH) & the Regulation (EU) No.1272/2008 [CLP].

#### **15.1 Regulations/ legislation concerning safety, health and environment about the substance or the mixture**

Not required.

#### **15.2 Chemical safety evaluation**

There has been conducted a chemical safety evaluation by the supplier according to Regulation No 1907/2006/EU (REACH).

### **16 – Other information**

The Safety data sheet should be used in combination with the technical documentation of the product. The Safety data sheet is prepared based on information collected up to the day that the Safety Data Sheet is written. It is a guide for the safe use, distribution, storage and transport of the product and it does not intend to provide any warning or detailed description. This information is relevant only for the product. If the product is combined with other material or in procedures other than the ones described this safety data sheet may not be applicable. The Safety data sheet meets the risk criteria of the Regulations of the Tested Products according to the directives of the European Union.
